

40 Pages in 4 hours:

You can also view more samples at

www.stampinbuds.com/ArtworkGallery/JustMarried.html

1. Choose the theme of your album including stamps and inks you would like to work with. "B" size stamps work really well.
2. Randomly stamp a piece of 12x12 cardstock (Ultra white works well).
2. Using the diagram as an example, cut your 12x12 pages down into 6x6 squares and then continue to cut them down further to make each element of the diagram. When you are done you will have 10 items that will make up 10 pages in your 6x6 album.
3. Mount the pieces onto colored cardstock or B&T paper.
4. Embellish with pictures, journaling, ribbons, eyelets, wire, waxy flax, etc.
5. Repeat this process 3 more times and you will have 40 pages done within 4 hours.
